

Cruise Control (Cody Williams cover)

Big Time Rush

I just wanna get in the car
And drive away
That's all I wanna do
Doesn't matter where we go
As long as it's me and you Come ride with me all night
Wherever you wanna go
Into the moonlight
Drive to the end of the road
Keep going to the sunrise
Put the car in cruise control, cruise control, cruise control
Anywhere you wanna go Everyday it's always the same
Gotta get away
Out of this game
Am so sick of this same town
This same place and these same faces So you came
And you open my heart to
Everything I never thought I do
And everyway and all because of you
I gotta get away, get away, get away
And never come back, no I just wanna get in the car
And drive away
That's all I wanna do
Doesn't matter where we go
As long as it's me and you Come ride with me all night
Wherever you wanna go
Into the moonlight
Drive to the end of the road
Keep going to the sunrise
Put the car in cruise control, cruise control, cruise control
Anywhere you wanna go Everyday like dejavu
I take a trip 'cause overdue
So done with what they say
What they do, it's just me and you So you came
And you open my heart to
Everything I never thought I do
And everyway and all because of you
I gotta get away, get away, get away
And never come back, no Come ride with me all night
Wherever you wanna go

Into the moonlight
Drive to the end of the road
Keep going to the sunrise
Put the car in cruise control, cruise control, cruise control
Anywhere you wanna goCruise control, cruise control
Anywhere you wanna go
Cruise control, cruise control
Anywhere you wanna goI just wanna get in the car
And drive away
That's all I wanna do
Doesn't matter where we go
As long as it's me and youCome ride with me all night
Wherever you wanna go
Into the moonlight
Drive to the end of the road
Keep going to the sunrise
Put the car in cruise control, cruise control, cruise control
Anywhere you wanna goCome ride with me all night
Wherever you wanna go
Into the moonlight
Drive to the end of the road
Keep going to the sunrise
Put the car in cruise control, cruise control, cruise control
Anywhere you wanna go.
