

Rear View Mirror

Grandaddy

Uh yeah

A keys

Rear view

Uh oh uh oh

Uh oh uh oh

AK 2000

Oh uh oh

It happened quickly, all of a sudden

I was caught up with another man

Who wanted to be closer

But now I know better and I'm

Hoping we can start again

I know that does not take away what I have done so

Let me show you how deep my love goes for you

'Cos you live and learn and that's how you find out who is true

And I found out that you were the one

I was deceived baby please forgive me

Don't want what we had to change

It's easier for us to get further

Don't look in the rear view mirror

Now that we are back again together

I want to show you how I mean forever

I'll do my best to shower you with love and attention

Don't ever have to mention a song after it ends

I know that does not take away what I have done so

Let me show you how deep my love goes for you

'Cos you live and learn and that's how you find out who is true

And I found out that you were the one

I was deceived baby please forgive me

Don't want what we had to change

It's easier for us to get further

Don't look in the rear view mirror

I can't change what I have done before

But now I know that your love means so much more

Than anything that had ever come my way

Keep your eyes on what we have today

I was deceived baby please forgive me

Don't want what we had to change

It's easier for us to get further

Don't look in the rear view mirror
I was deceived baby please forgive me
Don't want what we had to change
It's easier for us to get further
Don't look in the rear view mirror
I was deceived baby please forgive me
Don't want what we had to change
It's easier for us to get further
Don't look in the rear view mirror
I was deceived baby please forgive me
Don't want what we had to change
If we can get past the past
It happened so fast
If we don't look back
In the rear view mirror
I was deceived baby please forgive me
Don't know what we had to change
It's easier for us to get further
Don't look in the rear view mirror
