

# Everything Turned Red

## Useless ID

I am waiting  
For one happy ending  
I take back the secret  
I want you to know Bright lights and dark screens  
Won't save the last scene  
Maybe next time I see you won't be in my dreams I wish that I had a chance to get to know you  
Everything turned red the first time I saw you Fool of affection to get your attention  
You read me your lines then I gave you this song  
You messed up this one I better move on  
When it seems like we're heading in our separate ways
