In This Light

SikTh

When all the hail seems far away
In my sight
Just like it won't ever rain here
In this light, in this light

(chorus)
Let me sit right by your side
In this light
Let me sit right there
Sail
As the water lays under our sky

When all the hail seems far away
In my sight
Just like it won't ever rain here, oooooh

Let me sit right by your side
In this light
Let me sit right there
Alone, on my own

In this light we sail
As the water lays under our sky

Let me sit right by your side
In this light
Let me sit right there
Sail
As the water lays under our sky
Sail
As the water lays under our sky
