## Cactus World News

Movies, empty places  
Where the past has been  
At 1 o'clock in the morning  
It's a totally different scene Closing the door on the past now it's gone  
With my time There's a burning post not 20 minutes  
From right where I stand  
And all around me is breaking up  
And getting out of hand Things will never be the same again  
Well, fight is on, so much is gone,  
Close to it Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo  
Watching and wearing  
The same old clothes for years  
Who you gonna blame this time?  
I'm choking back my fears Closing the door on the past now it's gone  
Closing the door on the past now  
It's disappeared with the tide Things will never be the same again  
Well, fight is on, so much is gone,  
Close to it Things will never be the same again  
Well, fight is on, so much is gone  
Close to it Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo  
Closing the door on the past now it's gone  
Closing the door on the past now  
It's disappeared with the ti-i-ide (Spoken)  
You're looking in that one-way mirror  
But all these background detail has changed  
And every time it rings  
You never know what will fall on you this time  
But nothing ever dies  
No one else, just the years going by  
Nothing but time, nothing but time Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo  
Ah-whoooooooooooooooooooo

Ah-whoooooooooooooooooo
