

# The Story of Gods and Men

## Skip the Use

Hand on knees I take a breath  
Wondering about life and death  
People falling in the name of gods  
Shot by hate, oh you know  
Where is the faith of love?  
They trample on ancient wisdom  
We got no angels no just soldiers  
No justice oh no...This is a message to mankind  
It's not the truth it's not a lie  
There's nothing else between the lines... LoveHave no fear, release your pain  
It's time to live and give your best  
Death will get you anyway  
Live your life, oh you know  
This is the faith of love  
Knowledge is our best weapon  
We got no angels no just soldiersNo justice oh no...
