

# Dream Of Me

Anggun

Hembusan bayu antar dirimu Let me be the blue inside  
Of the flame that you feel  
The heat to hold on till you are near  
Biarkan kujadi mentari Keep me in your smile so sweet  
When you turn off the light  
And we'll be together in all our nights  
Dan kuhangatkan semua mimpi Dream of me  
Before you go I'll show you just how  
I'll make you dream of me  
Till night is over Dream of me  
Just a breath away in the dark  
I'll make you dream of me  
Come to me now We move so free and easy  
Just like it should be  
Just you, can give me all that I need  
Hanya dirimu yang kunanti I'll fly, find my way back to you  
In your deepest hours of sleep  
A nightride to my favourite fantasy  
Semua keinginan hati Dream of me  
Before you go, I'll show you just how  
I'll make you dream of me  
Till night is over Dream of me  
Just a breath away in the dark  
I'll make you dream of me  
Come to me now My desire never ends  
Will you meet me where the shadows blend?  
Light the stars up in my sky  
Got to know that you are still mine Dream of me  
Before you go, I'll show you just how  
I'll make you dream of me  
Till night is over Dream of me  
Just a breath away in the dark  
I'll make you dream of me  
Come to me now Take me with you when you go  
When you get so lonely and so cold  
Hold on to me every night  
Close your eyes, let your love go flying  
Let your love go flying
