

# C.R.E.B.

## Built to Spill

Yeah, God don't know  
Believe me, I believe that's true  
Everyday I replace yesterday with my brain  
Every season has a climate, blame it on the C.R.E.B.  
I never meant to forget you  
I always forget people I really like  
If I haven't seen you for a long time  
If I haven't seen you for a long time  
Round, round and round it goes  
Till the full C.R.E.B. knocked out let's you know  
Now I'm, one of them  
How much of who I am depends upon C.R.E.B.  
I never thought I'd forget you  
(Bridge)  
Yeah, every season passes three times  
I never wanna forget you  
So if your name is (ticka ticka ticka)  
If you go by (ticka ticka ticka ticka)  
Tell me you are (ticka ticka ticka ticka)  
Your hippocampus isn't on time  
Your hippocampus isn't alright  
Your hippocampus isn't on time  
Your hippocampus has it's own mind  
Your hippocampus never unwinds  
Your hippocampus does it alright
