

# Apartment Four

## They Might Be Giants

I live up in apartment four  
I'm on the very next floor  
The number's right on the door If you ever get bored  
Come knock on my door  
The one with the four I live up in apartment number four  
Where the sound of the drum comes from  
Just follow the sound  
That's where the four is found You don't know me  
But I remember when you  
Moved into flat number two  
That was the day that I knew That I was not the only one  
Who might like the drum  
That was shaking the floor  
Of apartment four Come on up to apartment number four  
Where the noise of the drum comes from  
Just follow the sound  
That's where the four is found
