

Live O

Dizzee Rascal

At the tone please record your message
At the tone please record your message
At the tone please record your message
At the tone please record your message I don't wanna screw but nothin' ain't new
I'll educate your whole crew when I come through
And you know its true, so what you gonna do?
You ain't got the foggiest ain't got a clue
Got a little fame, yeah I got game
Get my way with your dame just on my name
All I gotta say, get out the way
Dizzee Rascal's hot like summer bay And I hit MC's like croquet
If a boy pet then a boy must pay
You can start answer on a lay lay
Please feel free you can bring it any day
Anyway get wet like perry-ay
Better hope there's a ambulance on the way
OK if you wanna fight just say
We uppercute MC's like sugar Ray Hot like Cairo, hot like Mars
But I want houses and I want cars
So I spit verses and I spit bars
I don't care what they say man I ain't play
Hot like lava hot like hell
Move to your sister move to your girl
Charmane Cheri line or Chantalle
You better hide your wife, protect her well Killer instinct, instinctive killer
Run dear life can't get no bigger
Young guns flapping their guns with no fear
Females, money and guns its all here
Top shotters big cats street gats
Bent coppers aim for your knee caps
Some pay a visit to jail without bail
Some stay on top of the game without fail It's Live O
(Live O)
It's Live O
(Live O)
It's Live O
(Ah)
Look
Skank out

(Skank out)

Sank out

(Skank out)

Sank out

(Skank out)

And jump about See-Saw margerie door
Guess who sneaked in through the back door?

Born with a hacksaw through a trap door
Dizzee got a cheek and not much more
What's that violence what's that war?

Put him in a head lock see if he's raw

I cause arms that's on the dance floor

Set trend set standard set score Spin that bottle, nah dash that bottle

Talk tough but you ain't got no bottle

Get strangled get hold get throttled

Dizzee come old school like Aristotle

Blue bottle flying about with six holes

Ice dry hockey stick brake collar bones

We check girls with broken holes

Big battys big breasts light skin toes It's Live O

(Live O)

It's Live O

(Live O)

It's Live O

(Ah)

Look

Skank out

(Skank out)

Sank out

(Skank out)

Sank out

(Skank out)

And jump about Didn't wanna listen didn't wanna care

Left that boy in a gutter somewhere

Wanna talk Live O wanna talk rare

I make you wish you were born else where

I gotta wash that girl out my hair

She's old news everyones been there

No were not equal no we not fair

That girls innocent she gets air That MC's a doubt

Tell him I said it and I said it real loud

Going on rowdy going on row

That boy tried me that boy failed

Sorry pardon what?

Could of got brought up could of got shot

Gun man get gun down on the spot
Who's hot whews a bad boy whews not?It's Live O
