

Just Like You

[Keyshia Cole](#)

I'm on the move, I don't wanna lose what I came to prove
Is everything I expect myself to be
And I'm gonna do everything I set out to
Makin' my dreams come true, it means so much to me You could never understand
How I feel when I'm searchin' for the words to say
And I don't wanna be nobody else
Take the time and get to know me, the real me
And you will see, yeah I'm just like you, I'm tryna take my time and get to know me
I'm just like you, tryna live my life and take care of mine
I'm just like you, you, I'm tryna be happy
I'm just like you I wanna be the one who you can depend on
And when it feels so bad I know I can handle it
'Cuz I've been through so much, oh It's so much I've overcome, I had to look inside of me
And see just who's inside of me and know who I need was me
Ooh, it took so much for me just to see it's all in me And you could never understand
How I feel when I'm searchin' for the words to say
And I don't wanna be nobody else
Try to take the time and get to know me, the real me
And you will see, yeah I'm just like you, I'm tryna take my time and get to know me
I'm just like you, I'm tryna live my life and take care of mine
I'm just like you, you, I'm tryna be happy
I'm just like you You know, blessed be the Lord, my strength
Which teacheth my hands to war and my fingers to fight
Through it all He's protected me along the way
And I wanna thank You 'cuz without You I'm nothin' I'm just like you I know it gets a little hard but He will
take care of you
If you trust and believe and have faith, oh
And if you Look in the mirror, look in the mirror, what do you see?
Look in the mirror, look in the mirror, what do you see?
Look in the mirror, look in the mirror, what do you see?
Look in the mirror, look in the mirror, what do you see?
