Maybe

J. Creepers

Maybe it's the way you used to love me
Maybe it's the way I feel you now
I'm feeling like the sky is fallin on me
And my life is tumbeling down
Maybe I'm lost in the moment
I don't wanna be found
Feel like I must save the moment
Maybe I'm a fool for lovin you
Maybe you're right and maybe I'm wrong
Maybe cause I don't know what to do
Won't somebody please help me
Maybe I got something else to say
It really doesn't matter anyway
It's just a little word an empty call
No maybe means nothing and all
Maybe one day I win the lottery
Maybe I'll be poor all my life
And there so many possibilities
All I got to do is try try try
But I'm still lost in this feeling

Now I wanna be found
Can anyone stop me from falling
Maybe I'm a fool for lovin you
Maybe you're right and maybe I'm wrong
Maybe cause I don't know what to do
Won't somebody please help me
Maybe I got something else to say
It really doesn't matter anyway
It's just a little word an empty call
No maybe means nothing and all
I won't be waiting I can't be waisting no more time
Cause I got dray the line sometime
No second guessing it's only messing with my lige
I don't want it anymore no
Maybe I'm a fool for lovin you
Maybe you're right and maybe I'm wrong
Maybe cause I don't know what to do
Won't somebody please help me

Maybe I got something else to say
It really doesn't matter anyway
It's just a little word an empty call
No maybe means nothing and all
