

# Maybe

## J. Creepers

Maybe it's the way you used to love me  
Maybe it's the way I feel you now  
I'm feeling like the sky is fallin on me  
And my life is tumbeling down  
Maybe I'm lost in the moment  
I don't wanna be found  
Feel like I must save the moment  
Maybe I'm a fool for lovin you  
Maybe you're right and maybe I'm wrong  
Maybe cause I don't know what to do  
Won't somebody please help me  
Maybe I got something else to say  
It really doesn't matter anyway  
It's just a little word an empty call  
No maybe means nothing and all  
Maybe one day I win the lottery  
Maybe I'll be poor all my life  
And there so many possibilities  
All I got to do is try try try  
But I'm still lost in this feeling

Now I wanna be found  
Can anyone stop me from falling  
Maybe I'm a fool for lovin you  
Maybe you're right and maybe I'm wrong  
Maybe cause I don't know what to do  
Won't somebody please help me  
Maybe I got something else to say  
It really doesn't matter anyway  
It's just a little word an empty call  
No maybe means nothing and all  
I won't be waiting I can't be waisting no more time  
Cause I got dray the line sometime  
No second guessing it's only messing with my lige  
I don't want it anymore no  
Maybe I'm a fool for lovin you  
Maybe you're right and maybe I'm wrong  
Maybe cause I don't know what to do  
Won't somebody please help me

Maybe I got something else to say  
It really doesn't matter anyway  
It's just a little word an empty call  
No maybe means nothing and all
