Wastin Time

Murmurs

Baby baby with your skin so fair
My heart shoots up straight in the air
When you hold my hand
When you free my mind
But just make sure you're not
Wastin time, wastin time
Answers, answers Yeah you need them now
My heart is abounding
Ripping, falling down
Don't expect no answers
Don't expect my life
Cause I just need to
Waste some time, waste some time
Time time time time
Something please come along and rescue me
I need to run away I need to be free
But just don't rush me
I've never come across this in my life
Well I'm usually random
And I'm rarely right
So please don't hate me
No please don't mind
Cause I just need to
Waste some time, waste some time
Time time
Something please come along and rescue me
I need to run away I need to be free
But just don't rush me Wastin time, wastin time
Wastin time, wastin time
Wastin time, wastin time
