

I Need More

Fredo Santana

I can no longer see myself being the girl for you
I used to be, you've done so much to bring me down
When I think about how you treated me
I no longer need to try and be perfect for you
'Cuz now I see I'm just something to throw around
You were never down just misleading me
I need more than what you're givin', what you're givin'
I can't take no more of being second in line in your eyes
Heard it all before, time to even the score
It'll be a cold day, help please, your girl
Shed another tear, boy, you better hear me
Friends is the phrase you used to describe our relationship
It was best for you, when the other girls can come around
You would have an out, to do the do, but now I've found in me
The strength to save the hell with you and let it be no more
Will I be sick and down or thinkin' 'bout lovin' you?
I need more than what you're givin', what you're givin'
I can't take no more of being second in line in your eyes
Heard it all before, time to even the score
It'll be a cold day, help please, your girl
Shed another tear, boy, you better hear me
I need more than what you're givin', what you're givin'
I can't take no more of being second in line in your eyes
Heard it all before, time to even the score
It'll be a cold day, help please, your girl
Shed another tear, boy, you better hear me
(Yes)
I can't deny I miss you
(Can't deny I do)
And I can't deny I wish you
(Wish you only knew)
How to treat a girl, who'd give her whole world out to you
But I understand you now, you'll never appreciate somebody like me
I need more than what you're givin', what you're givin'
I can't take no more of being second in line in your eyes
Heard it all before, time to even the score
It'll be a cold day, help please, your girl
Shed another tear, boy, you better hear me
Did you hear me? I hope you didn't

The time when I liked you
It'll be a cold day, help please, your girl
Shed another tear, boy, you better hear me
