

# Room

Liza Anne

In your room, in your room  
Silent man once again  
The razor's song, the razor's song  
Wear the mask another face  
In your room, in your room City red, city red  
Wear the mask, wear the mask  
A private hell, a secret sin A friend of mine waiting for  
A western man, waiting for  
New kind of glory  
A view of glory from this room I only live here, I only live here  
A fragile man, waiting, waiting  
I only live here, I only live here  
[Incomprehensible] Echoes  
Echoes  
Echoes
