What About My Broken Heart

DJ Bobo

What about my broken heart
What about my broken dreams
What about the things you said
Does it matter
What about the end of this
Why does a heart begin to find things bad
Tell me why
Why does the world not see that I am sad
Tell me whyCouldn't be a day on a sea of joy
Hanging' on the beach
Getting hard at toy
If you want someone to be in love with you
Think the right way is what you should do
See it in your smile see it in your hair
You're the only one that's what I swear
What about my dreams and my broken heart
All the things you said we're gonna startNow but think about me myself and I
My melodies makes you satisfied
You never ask why cause you are to shy
I wanna be with you
I will never see you cry
What about my dreams and my broken heart
All the things you said we're gonna start
What about my dreams and my broken heart
All the things you said we're gonna start
