Parallel To Ecstasy

Pain

[Incomprehensible]
I can feel the energy
Feels like I've been up on an experiment on ecstasy
I feel it kicking in again [Incomprehensible]
Your only motive, you're alive you never dieSearching for those sleepless prayers of your life
Come to find out that you been living a lie
Realities reflect the shadows in the nightDid you ever realize how I know
Like nowhere riding around with a gun
Ride around the storm will never stop[Incomprehensible]
[Incomprehensible]
When all the lucky ones get by
Re-entering a pain called life
Pain is life, life is painSearching for those sleepless prayers of your life
Come to find out that you been living a lie
Realities reflect the shadows in the nightDid you ever realize how I know
Like nowhere riding around with a gun
Ride around the storm will never stopSearching for those sleepless prayers of your life
Come to find out that you been living a lie
Realities reflect the shadows in the nightDid you ever realize how I know
Like nowhere riding around with a gun
Ride around the storm will never stop
