## Protest the Hero

Without a word uttered  
A comparison is drawn.  
A distant future, a cluttered past  
Amid the stars.  
Vague and persistent,  
Thought lacking consistency.  
Unwilling victim of farce.  
The loudest voices scream uninspired.  
Their numbers vast, their spirits drowned.  
Quiet choices sing against the choir  
The majority is almost never wrong...  
Never wrong... Ever... Never wrong. A laughable assertion  
That there might be some connection  
Adorn the walls with mirrors and misdirection,  
Or let it go  
Or let it go  
Or let it go  
Or let it go No common thread,  
No ties that bind.  
Just grasping and clawing to keep in mind.  
Historical analysis  
They play us every vote,  
But what contributes more to the whole? Like a saucer ship  
Let's separate and shuffle off this conflict.  
My armament will suffocate,  
And leave you feeling useless. We are your beginning  
And we will be your end.  
Affluence permitting, a mutual annihilation. A laughable assertion  
That there might be some connection  
Adorn the walls with mirrors and misdirection,  
Or let it go  
Or let it go  
Or let it go  
Or let it go Discussion moves  
Our guilt men tended  
Aggressive mutes  
Stumbling defended  
Fiction versus fantasy where factoring's unclear  
How you protect both franchises

That's all that anyone caresWe are your beginning  
And we will be your end.  
Affluence permitting, a mutual annihilation.I don't care who shot first  
Or for the song and dance you've rehearsed. (Mutual annihilation)  
I don't care who shot first,  
Or for the song and dance you've rehearsed.The maps are divided  
And each I've traversed.  
Alignment influx for better or worse.  
Is the drain finally swirling  
Or are we swirling the drain?  
The drought is relieved with acid rain.This drought is relieved with acid rain.  
This drought is relieved with acid rain.  
This drought is relieved with acid rain.(We are) We are your beginning (and the end)  
And we will be your end (We will bring your end)  
We are your beginning (Your beginning)  
And we will be your end (We will bring your end)Affluence permitting, a mutual annihilation
