

It's Over Now

Luther Vandross

Something's going on, it's the middle of the night
And my ESP woke me up
I know what's going on girl, you ain't been treating me right
And your sweet talking ain't enough Yeah, I know you're messing
With at least 2 other guys
You fooled me a long time
But the kid is getting wise, yes I am Don't hug me, don't kiss me
Don't love me down
Excuse me, but you see
This love affair is over now You did me bad
(Over now)
(It's over now)
You treated me so bad
(Over now)
Yeah yeah
It's all over baby I didn't know it when I walked into the house
But you were on the telephone
That's when I heard you tell him to come over tonight
Said you were gonna be alone Yeah, I heard you mention
That I had someplace to go
And you helped me pack my things
But it's you who's got to go, yes it is You're busted,
You must have fooled me for a while
But honey, as they say
Hit the road
It's all over now You did me bad
(Over now)
(It's over now)
You treated me so bad
(Over now)
Yeah yeah yeah
It's all over baby (Over now)
You did me bad
(Over now)
(It's over now)
You treated me so bad
(Over now)
Yeah hey yeah
It's all over baby You can go now, keep your voice down

There's no need to fuss and shout, no baby
Use the back door, I don't want no nosy neighbors
To see you checkin' out Get out
It's all over baby Bye baby
(Bye baby)
So long
(So long)
It's been a while
If you really love me
I wouldn't say it's over now But you did me bad
(Over now)
Yeah hey
(It's over now)
Well, well you treated me so bad
(Over now)
Yeah hey yeah
It's all over baby (Over now)
You did me bad
(Over now)
Yeah hey
So it's all over now (It's over now)
You treated me so bad
(Over now)
Yeah hey yeah hey
It's all over baby (Over now)
You did me bad
(Over now)
Hey hey, hey hey (It's over now)
You treated me so bad
(Over now)
It's all over baby (Over now)
It's all over baby
It's all over now
(Over now)
It's all over baby (Over now)
It's all over baby
It's all over now
(Over now)
It's all over baby
It's all over baby (Over now)
It's all over baby
(Over now)
It's all over baby (It's over now)
It's all over baby
It's all over now

(Over now)
It's all over baby
It's all over babyOver now
Over now
