Forever Free

Stratovarius

They try to give me answers
To questions I've never asked
I'll have no part in their conspiracy
I guess I am the kind of
Guy that will never stray
The thing I need is privacySome guiding, depriving
Misleading and combining
They're watching our every moveThey can try to bind our arms
But they can't chain our minds or hearts
We will keep our faith inside our souls
And never let it go, we are forever free
Forever free yeahYou see them making headlines
New pictures tell old stories
Explaining what they have said and done
Media's new illusion
Creating more confusion
But I know that they'll soon be goneSome guiding, depriving
Misleading and combining
They're watching our every moveThey can try to bind our arms
But they can't chain our minds or hearts
We will keep our faith inside our souls
And never let it go, we are forever free
Forever free yeahThey can try to bind our arms
But they can't chain our minds or hearts
We will keep our faith inside our souls
And never let it goThey can try to bind our arms
But they can't chain our minds or hearts
We will keep our faith inside our souls
And never let it go, we are forever free
Forever free yeahForever free yeah
Forever free
Forever free yeah
We are forever free
Woh ohh, we are we are forever free
