# Caskets

## Cottonwood Firing Squad

i will wade for you throughout the ocean
i will wade for you through the sea
i will wait for you by the backdoor
if you'll wait there for me

tomorrows another chance to
get high all on my own
tomorrows another chance to
show you how it feels
how it feels to be alone

no one in this world can hold a candle up to you
no one in this world can hold a candle up to you
no one in this world can hold a candle up to you

i will wade for you throughout the ocean
i will wade for you through the sea
i will wait for you by the backdoor
if you'll wait there for me

tomorrows another chance to
get fucked up all on my own
tomorrows another chance to
show you how it feels
how it feels to be alone

no one in this world can hold a candle up to you
no one in this world can hold a candle up to you
no one in this world can hold a candle up to you
