Nothing Left to Say

Entwine

There's no time for you baby
No time to realize
Our life will be wasted
You ruin it with all your liesWould you die for me baby?
'Cos I'm dying all the time, I'm tired of this faking
This time I'm gonna be strong
This time I've gotta move onYou've laughed at me for the last time
No more of these bitter lies
You've laughed at me for the last time
No more of these bitter liesYou're in love with yourself, babe
Is it love we sacrifice? I'm so tired of this faking
This time I'm gonna be strong
This time I'm gonna move onYou've laughed at me for the last time
No more of these bitter lies
You've laughed at me for the last time
No more of these bitter liesOhh, no more lies, no more lies
From now until the end of time
No more lies, no more lies
From now until the end of timeNo more lies, no more lies
From now until the end of time
No more lies, no more lies
