

Silent Suicide

Millencolin

Some people say that they believe
Some people say that they believe and wonder what they will achieve
Some people think that they are strong
Some people think that they are strong, someone will prove them wrong Listen to this silent suicide, we'll listen
Speak up now before they will decide
A silent suicide for nothing You think we'd freeze if he was gone
You think we'd freeze if he was gone, yet we come out strong
On top of you, that's where we'll stay
On top of you, where we belong, we'll prove you wrong Listen to this silent suicide, we'll listen
Speak up now before they will decide
A silent suicide for nothing Yeah Just for nothing
