

Temperature's Rising

[Raheem DeVaughn](#)

Temperature's rising
Lay your body down, to the love king
Sshh, hush, don't say a word
This feel like 90's R&B shit
Can you feel it like 90's R&B
Can you feel it like 90's R&B
Can you feel it like 90's R&B Temperature's rising
My body's like a heatwave (heatwave)
My body's like the 4th of July
My body's like a sauna baby (sauna baby)
Like a fever hundred and five
Whistling hot like a kettle baby (hot)
Oooh like summer time in Georgia
Hot cocoa in the winter
From your mouth down to your centre
I don't wanna speak in tongues ooh (wow)
You got that baby makin'
Earth shaking, jaw breaking
No AC with the windows down type of love, you got Temperature's rising (oh yeah)
And my body's yearning (oh yeah), for you
(My body's yearning for you baby)
For you
Temperature's rising
And your body's yearning for me
(Your body's yearning for me too)
For me too We gon' need a bucket of some ice cubes baby
We gon' need a cieling fan and a cool rag
We gon' need a moment for some recuperation
To show gratitude to the best I ever had
'Cause baby you hot just like the wax off a candle
Baby I'm hot like a match with the flame
Baby your hot like the pipes on an engine
Baby I'm hot like a pistol at the range, baby
I'm so hot, I'm about to blow
'Cause you're sweet like sugar with ancient in Rome
With no AC, with the windows down
And a heatwave in the summer time
You, you got my Temperature's rising
And my body's yearning, for you

For you (oh baby, oh)
Temperature's rising (do you feel the temperature raising in your body right for me baby?)
And your body's yearning, for me
For me too So get your body
So get your body naked cause the temperature right
Get your body naked 'cause the temperature's right for me
Is right for me (get your body naked baby I want to get you right)
So get your body naked 'cause the temperature right (baby, let's go to the shower)
Get your body naked 'cause the temperature right for me
(Is right for me)(Baby) Temperature's rising
And my body's yearning (my body's yearning), for you
(For you) For you
Temperature's rising (and I got something)
And your body's yearning (I got something for your yearning body baby), for me
For me too (Arch your back and close your eyes)
Temperature's rising ('cause my temperature raising, raising, raising for you baby)
And your body's yearning, for you
For you (Baby)
Temperature's rising (your temperature is rising baby)
And your body's yearning
