

Come and Get It

Judas Priest

Do you like it heavy? Do you love it mean?
Do you want it dirty? We don't play it clean
Standing in the spotlight, ceiling to the floor
I can see you rockin', let me hear you roarTurn it up, tear it down
Hammering through, can you feel the sound
Any day, any night, midnight madness
DynamiteIf you want it? Come and get it
Do you want it? Come and get itCan you feel the power, blinded by the light
Keep on goin' crazy, burnin' up the night
Shouting out together, boiling like the sun
Metal lives forever, blazing on and onTurn it up, tear it down
Hammering through, can you feel the sound
Any day, any night, midnight madness
DynamiteIf you want it? Come and get it
Do you want it? Come and get itDo you like it heavy? Do you love it loud?Do you want it? Come and get it
If you want it? Come and get itDo you want it? Come and get it
Do you want it? Come and get itIf you want it? Come and get it
Do you want it? Come and get it
