

Fire Sign

Gossip

What do I gotta do to make it work out do I gotta do
Yeah, messing around with the fire sign
You make it feel like the world is after you
But what can you do? What you gonna do? Now, Mary what are you thinking?
Mary, when will you learn Now, Mary she ain't helpless
But Mary she don't feel smart
But Mary you can't help it
'Cos growing up is the hardest part But it ain't your fault
Don't you ever stop Now Mary you keep on thinkin'
And Mary one day you'll learn What do I gotta do to make it work out do I gotta do
Messing around with the fire sign
You make it feel like the world is after you Mary what are you thinkin'?
Mary when will you learn
