2 Can Play That Game

Sygnature

When I met you
Did I sweat you?
Didn't I let you
Do it all cause you ball
At the hot spot
Cover drop top
With some ice in your watch
It's so phat you forgotBut as soon as I turned my back on you
Another guy got with it
The day that I gave my heart to you
I thought that you was with it
What kind of fool am I?
What kind of love is this?
How long did you think you could play me?If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter cause two can play that gameI was at a party
Sippin don p
In Armani
When somebody bumped into me
Then our eyes met
And her eyes said
I could have her if I wanted that I'd only have to askShe asked me if I had a girl
And it really didn't matter
She must not be that good to you
When I could treat you better
I don't know what to do
She wants to leave the crowd
Then she whispers to me,"Let's make-out."If that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter cause two can play that gameIf that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter cause two can play that gameIf that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter cause two can play that gameIf that's the way you want it that's cool with me
Don't come running back on your hands and knees

If that's the way you like it baby do your thing
Don't really matter cause two can play that gameIf that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter cause two can play that gameIf that's the way you want it that's cool with me
Don't come running back on your hands and knees
If that's the way you like it baby do your thing
Don't really matter cause two can play that game
