

I Just Want To Love You

Lonestar

Baby, come sit down beside me
I wanna hear all about your day
There was a pile up on the interstate
I'm sorry that I got home so late
I thought about you all the way home
Can we leave the TV off tonight, unplug the phone?
I just want to love you
More than anything else
More than life itself
More than ever, baby
I just want to hold you
Feel your breath on my skin
Again and again and again
Let's shut out the world
And dim all the lights
Baby, tonight I just want to love you
We can light a couple of candles
And watch the shadows dance on the wall
While we're moving through the silence
Into the rhythm of our own song

I don't wanna fall asleep tonight
Don't wanna think about tomorrow
Baby, I just want to love you
More than anything else
More than life itself
More than ever baby
I just want to hold you
Feel your breath on my skin
Again and again and again
Let's shut out the world
And dim all the lights
Baby, tonight I just want to love you
I just want to hold you
Feel your breath on my skin
Again and again and again
Let's shut out the world
And dim all the lights
Baby, tonight, baby tonight, I just want to love you
