

In My Life

Moby

In my life, no, no
My whole life is fucking you, you, you
And in my life, my life, my life
And I'm so scared that you and you, you'll let me just go Let go, let go, you'll never know, no, no,
Go in my life
My life, my life and told me that I'd die, I'd die, I'd die
Well, I'm here in my life, my life, my life In my life, my life, my life
In my life, my life, my life
If this was mine, mine, mine
