

# Dragging My Casket

## Forbidden

Oh, this feeling takes my mind await to a dark place  
I hope to see the light again, someone help me  
I need your hands to reach out for me, I'm descending  
This tension is eating away at my dreams, dragging my casket  
Oh, I'm blinded by conspiracy, so I question  
Contradictions plague my mind, always guessing  
I'm caught underneath all the agony, I'm descending  
This tension is eating away at my dreams, dragging my casket  
Digging my grave, who's going to save me?  
Burnt by the fire, stole my desire  
Holding me down, who's going to save me?  
Embracing my pain, no one will save me  
I'm dragging my casket down  
Shovel the earth upon my dreams  
Nothing is ever what it seems  
Diluted illusions reality  
Buried ambitions, they've died
