Don t even know I was only 17
I loved the way more than she loved me
I loved the way more than she, did she?

But how can you love anyone
When you just don t love yourself
And how can you know anyone
When you still don t know yourself

Don t even know I was only 17
I loved the way more than she loved me
I loved the way more than she, did she?

(repeats)

I had to turn my head and walk away (repeats)

Don t even know I was only 17
I loved the way more than she loved me
I loved the way more than she, did she?

But how can you love anyone
When you just don t love yourself

And how can you know anyone Don t even know I was only 17

I loved the way more than she loved me
I loved the way more than she, did she?

(repeats)

I had to turn my head and walk away (repeats)

Lifelong swagger
Fill me like Jansen the ogre

. above me she never

I m in this forever

Like it or lamp it

Put it on your stereo

Pomp it

Can t stand up to the sound of a trumpet

. psychic solution unlikely

I shine so brightly

Stop cause it might be

The last one standing

But their minds . branded

Step aside make room for landing

The DJ it s gonna bring the bandit
