

Just Dance

Heroes On Parade

Take my hand
You know you want to
You'll never get another chance like this
We got this one night
Come on let's do it right

I wanna feel your heart beat
Up against mine

Let's start something
Come, I'm ready
Are you ready?
Ready for me?

You'll never get another chance like this
And I wanna feel your heart beat
Heart beat

I know your thinking
I feel you breathing

Let's do away with words
Away with words

Just dance
Just dance
Talk with your body (body)
Just dance, just keep on moving (moving)
Don't be so scared
Just take a chance tonight (everything is alright)
Just dance
Just dance
Talk with your body, on me

Take my hand,
You know you want to
You'll never get another chance like this
We got this one night
Come on let's do it right

I wanna feel your heart beat up against mine
Lets start something, come iâ€™m ready
Are you ready?
Ready for me?

Youâ€™ll never get another chance like this
And I wanna feel your heart beat
Heart beat

I know your thinking
I feel you breathing

lets do away with words
Away with words

Just dance
Just dance
Talk with your body (body)
Just dance, just keep on moving (moving)
Dont be so scared
Just take a chance tonight (everything is alright)
Just dance
Just dance
Talk with your body, on me
