Look What I Found

Freda Payne

Well, I walked all around this crowded planet but I walked all alone
Though the place has changed, the faces stay the same
Spendin' my money makin' up funny stories to tell
In a noisy bar where no one knows your name, yeahRunnin' out of places still worth runnin' to
Takin' pictures no one's home to see
Makin' deals with small town tourists, travelin' alone
I'll take one of you and roam, if you'll take one of meAnd just when I'd given up lookin' for love
Look what I found, look what I found
Just when I'd given up lookin' for love
Look what I found, look what I foundWell, I know how it feels to love somebody when they don't feel the same
Sure, it breaks your heart and ya fall apart inside
Lovers behind ya laughin' behind ya everywhere you go
And the hurt ya feel is just too big to hide, yeahCouples only seatin' at the dinner show
Sorry, but you stood so long in line
Nothin' really matters when the one who cared has gone
Some of us have just one chance and I thought I used mineJust when I'd given up lookin' for love
Look what I found, look what I found
Just when I'd given up lookin' for love
Look what I found, look what I foundJust when I'd given up lookin' for love
Look what I found, look what I found
Just when I'd given up lookin' for love
Look what I found, look what I foundJust when I'd given up lookin' for love
Look what I found, look what I found
Just when I'd given up lookin' for love
Look what I found, look what I found
