

# As Fast As I Could

[Josh Turner](#)

Baby, I know that you've been waiting patiently  
For a man to give you all that you need  
Love you like he should Sticking to your guns, looking for the right one  
Just somebody who treats you good  
It took me a while but I got here as fast as I could I ran full speed ahead without stopping to rest  
Not knowing where I was headed to  
Now that I'm here, it's perfectly clear  
That I was making my way to you  
Can't believe how long it took  
But I got here as fast as I could I've ended up on at least a hundred dead end roads  
Where my heart and I just wound up broke  
Lost and misunderstood I tried to rush finding true love  
It didn't pan out like I thought it would  
It took me some time but I got here as fast as I could I ran full speed ahead without stopping to rest  
Not knowing where I was headed to  
Now that I'm here, it's perfectly clear  
That I was making my way to you  
Can't believe how long it took  
But I got here as fast as I could I ran full speed ahead without stopping to rest  
Not knowing where I was headed to  
Now that I'm here, it's perfectly clear  
That I was making my way to you  
Can't believe how long it took  
But I got here as fast as I could Yeah, I got here as fast as I could
