

Hope (Scream It Out Loud)

The Blackout

Give up, give in, cause you know you'll never

Become something, just the same as ever.

You won't fit in, that's just how it goes.

Breath in, walk out, will anybody ever know. I know you find it hard to shine when every turn you take is lined,

With the fear of never making it alive. Never give in, hope is all we have and all we've ever known.

Never fear it, but you gotta hear me out, so scream it out loud. And scream it out loud. We will be big, always
standing proud,

We will sing up, we will shout it loud.

We can be strong, when it all comes down,

We won't move on, we will always stick around. If you find it hard on times when everyone you see is blind,

To the hopes that you still dream about inside. Never give in, hope is all we have and all we've ever known.

Never fear it, but you gotta hear me out, so scream it out loud. Never give in, hope is all we have and all we've
ever known.

Never fear it, but you gotta hear me, it's all we've ever known.

Never fear it, hope is all we have and all we've ever known.

Never fear it, but you gotta hear me out, so scream it out loud.
