The Evil Made Me Do It

Powerwolf

The evil made me do it all
The evil made me do it
The evil made me do it
The evil made me do it allCome real closer
Fire fighters in the moon
And when you live like I do
The time is coming outThe evil made me do it
The evil made me go
The evil made me do it allWhen the loners are '
It's time to break for you to run
And when I see you stuck and bright
And when I feel you out of my sightThe evil made me do it
The evil made me go
The evil made me do it allThe evil made me do it
The evil made me go
The evil made me do it all
