

Starry Room

Jaden Smith

To be honest, my conscious giving me caution
I'm dealing with all this non sense
To be honest, I'm talking to all my aunts
And they give me bad responses girl
I'm a be honest, they got trickery in their pockets
And their hearts are blacker than onyx and girl
Let's just be honest, I feel like I'm narcotics with you
I feel so erotic, you know I'm a workaholic
If your fingernails are still polished you planning to go to college
Then we shouldn't have to worry,
But you live your life in a hurry
You droppin' out so it's blurry
We fallin' down in a flurry
You serious? you go through these periods
When you hang with these eerie kids it's hilarious
And you call me while you're delirious
And tell me how it's going
And then I start to get furious
You go up in your room, blaze in and light a candle
While I play Bella's lullaby while I cry on the piano
People question did I love her, just know it cuts deeper
Then what all them bracelets cover and that's very true
And this ain't another cover,
This is to uncover all the magic that is happening this summer
And girl you'll always be my lover
But then a time will come when you'll go and find another
But you'll always be my star, yeah
Man I remember, back in, I don't even remember how old I was
But, I might've been like 8 I had my first girlfriend
I guess I've been messing up ever since
I don't do it on purpose, so I guess I don't know what this means
I want somebody... that can touch my body
Who's loving everybody, but loving nobody but me
And nobody can see what me and her doing on our spare time
That was our time, it isn't their time And I'm just happy 'cause it's over and
I'm not the one to look over my shoulder
Keep on moving forward, if I'm looking back I'm gonna cry
She told me that I'm really just a selfish kind of guy
Well I guess she knows me best

But it didn't feel like it when her hands was on my chest
I guess that in Costa Rica and Philly was very selfish of me
Well I'm sorry girl, I'm just chilly
And I feel helpless if that's true because you know that them relationships are very lonely when you're gone and
we were chillin' until we
Broke up, know what you were there when I woke up
Got emotions that we can soak up, girl I can be your soldier
Girl I promise that, and I'll never take that promise back
If it wasn't for you I was just kinda rap,
Prince Charming may come one day
And girl I'm fine with that, but you'll always be my star
You'll always be my star, you'll always be my star
Girl no matter where you are
Trust me, you'll always be my star, girl you'll always be my star
You know that, you'll always be my, girl you'll always be my star
'Cause this room is really starry
This is me telling every girl I've dated that I'm sorry
Yeah it's really starry
This is me telling every girl I've dated that I'm sorry
Sof girl I'm sorry
This is me telling every girl I've dated that I'm sorry
Kennedy I'm sorry
This is me telling all them other girls I'm just sorry
Man this room is really starry
I'm sorry, girl you know I'm sorry
This room is really starry
Rachel girl I'm sorry
Man this room is just so starry
This room is so starry
Man it's bright outside
But girl, in here it's really starry
Olivia I'm sorry, but this room is so
I'm sorry, girl, I'm sorry
But this room is so, I'm sorry
Stella girl I'm sorry
