

Break Your Heart

[Jennette McCurdy](#)

Ohh, ohh
You stood there on that sidewalk
In front of God and everyone
You told your goodbyes and I could've swore
I saw you smilin' while I just came undone
All your friends who watch the show
You wanted your freedom and now you don't Well, I'm gonna break
Break your heart on the radio I didn't want to have to do this
Waste a perfectly good song
I'd rather be singin' about a love I can believe in
And not one that's gone wrong, it's all for you
Yeah, it's heartfelt you grow fine, pay back is hell Well, I'm gonna break
Break your heart on the radio And your tellin' me you don't want to us to be over?
You better pull your cot over the shoulder's
I'm gonna break
Break your heart Well I'm gonna break
Break your heart on the radio On the radio
