

Cool Operator

Johnny Thunders & Wilko Johnson

I said I, I'm cool operator
I said I, I'm cool operator Yeah I can make you happy yes I can
Yeah I tell all the little girls just when
I can make your eyes sparkle yeah I say
I can make you cry, I'll tell you why Well I don't need to know, I don't need to know
I don't need no looks, I'll let you know
I just gotta say when yeah you know
And you'll do what you want yeah you go
Well I was born standing up kicking back
I'll tell you man where it's at
I've tied my mother to the kitchen stall
I tell my sister hey you wash my clothes Well I can make Tokyo bay bloodclot red
I can get Godzilla give me head
I can make a blind person see go
I can make a dead person really know
Well I make all the little girls look and listen
I met a pretty girl I kiss em
I'll tell you reason, the reason why
Why I'm going and why I try
