La Reine Noir

Varathron

Shattering the serpent egg
Black shape reincarnates
Baptized in underworlds places
Domination of mystical worshipA weird shrine with malevolent colors
Manfully conquers the time
Disequilibrium of universal balance
La Reine Noir is cast to Earth ?La Reine NoirWithering in weakly sunlight
Petrified instincts awaken once again - La Reine NoirNumber the corpses in the plundered tombs
Incurable plagues in her immaterial faceA dance in funeral triumph
The daughter rides the chariot of fireControls the spirits of all enemies
Diffusing into the deserts of nightWithering in weakly sunlightNumber the corpses in the plundered tombs
Incurable plagues in her immaterial face
