Good Love

Incognito

Baby, baby, baby, baby, babyIf you believe that you get out what you put in
You better move on 'cause there's no time to fool around
All the right intentions and promises don't mean a thing
If you can't get the job doneIf you insist on makin' life a compromise
You're gonna wake up to find your world has come undone
All the right intentions and promises are never enough
And soon you find it all goneNow time has come, make up your mind to be real
Baby, baby, babyGood love, precious and gifted
Can't stand waitin' forever
Good love, no greater feelin'
No one could ever deny
Stop wastin' all the good loveYou're takin' your time comin' around to let me know
Now you better decide 'cause there's a limit to your games
Let your intuition lead you on
Follow the signs to the place you belongIf you believe that you get out what you put in
You better move on 'cause there's no time to fool around
All the right intentions and promises don't mean a thing
If you can't get the job doneNow time has come, make up your mind to be real
Baby, baby, babyGood love, precious and gifted
Can't stand waitin' forever
Good love, no greater feelin'
No one could ever deny
Stop wastin' all the good loveGood love, precious and gifted
Can't stand waitin' forever
Good love, no greater feelin'
No one could ever deny good loveDon't go wastin' good love
Now time has come, make up your mind to be real
Baby, baby, babyGood love, precious and gifted
Can't stand waitin' forever
Good love, no greater feelin'
No one could ever deny
Stop wastin' all the good loveGood love, precious and gifted
Can't stand waitin' forever
Good love, no greater feelin'
No one could ever denyGood love, precious and gifted
Can't stand waitin' forever
Good love, no greater feelin'
No one could ever deny
Stop wastin' all the good loveGood love, precious and gifted

Can't stand waitin' forever
Good love, no greater feelin'
