What You Get

Entertainment for the Braindead

Count to ten then relax for a while
Simmer down and regain control
How you are sends the shivers to spines
We sit here and hope that it passes by
And one day it will be fine
So what if you turn back?
If talking's a waste of our time
You would leave us only the more upset
'Cause that's what you get
Fall in line and remember your place
Stand up straight, don't forget the time
How the trials never taught you a thing
It's meaning is lost on ears shut tight
And one day it will be fine
So what if you turn back?
If talking's a waste of our time
You would leave us only the more upset
'Cause that's what you get
'Cause that's what you get

I think you should know
We've restored our faith
As that was the right thing to do
I think you should know
As that was the right thing to do
I think you should know
We've restored our faith
As that was the right thing to do
I think you should know
As that was the right thing to do
So what if you turn back?
If talking's a waste of our time
You would leave us only the more upset
'Cause that's what you get
'Cause that's what you get
'Cause that's what you get
'Cause that's what you get
