

Mine and Only

Sizzla

Ah, ah, eya quality
Yeah, my girl, let me take you by your hands
Let me love you the way you want me to Ey woman, you treats me good
Matter not what they do, we never separate
Woman you give me love
Matter not what they say, you're always by my place
And I'll never turn us off I'll be there all the time, so let this be your lesson
To give you all the love you want
Assist you like a man, never withhold your bless
And that's why I love you so You give me good love and I like that
Hold me tight and never let go
Worth more than gold, they couldn't price that You're mines and only, never leave you lonely
Let your love surround me
Empress, you're mines and only, never leave you lonely
Let your love surround me You're mines and only, never leave you lonely
Let your love surround me
Woman, you're mines and only, let your love surround me
Never leave you lonely Ooh yeah, that's why I love you so
You give me good love and I like that
Hold me tight and never let go Worth more than gold, they couldn't price that
And that's why I love you so
You bring me youth and I like that
So hold me tight and never let go, ahh Woman, you bring me joy
Through the rough and the tough times
So let us not destroy the true love that we had found
Where ever that you go
You receive all the complements, girl And I want for you to know
You're the essence of the presence of this world
All the girls and the boys, how they follow us
Because of our clean livety that's why they honor us
Propaganda and slander couldn't shadow us, whoa, oh You're mines and only, never leave you lonely
Let your love surround me
Woman, you're mines and only, never leave you lonely
Let your love surround me You're mines and only, never leave you lonely
Let your love surround me
Girlfriend, you're mines and only, never leave you lonely
Let your love surround me I had known you from we were young
Your mama caught me kissing you and began to blaze
And now I've got you in my arms

No one stopping us because we all come of age
That's why I love you so You give me good love and I like that
So hold me tight and never let go, that's why I love you so
Woman, you give me good love and I like that
Hold me tight and never let go, yeah, yeah, yeah With the powers of the most high
I say nothing is impossible, oh
Wipe the tears from you eyes
He'll remove your obstacles, yeah We're coming from so far
Now today look at where we reach
Girl, I love you for who you are
You're so beautiful, you're so unique You're mine and only, never leave you lonely
Let your love surround me
Girl, you're mine and only, never leave you lonely
Let your love surround me
You're mine and only, never leave you lonely
Let your love surround me
