# Flaunt It

## Trouble Andrew

She flaunts it, cause she's got it.
So she kiss it.
She flaunts it cause she's got it.
So she kiss it.
She's the one I'm dreaming of.

I've been feeling lonely lately, waiting, patient I almost taste it.
We should get it on, baby shake it, drive me crazy.
So baby put it on me.
We don't have to be in love girl, just put it on me.
We don't have to be in love girl, just put it on me.

She flaunts it, cause she's got it.
So she kiss it.
She flaunts it cause she's got it.
So she kiss it.
She's the one I'm dreaming of.

All over me, that's how I really want you.
All over me, you just keep on working.
Focus on me and tell me what you see.
Focus on me and tell me what you see.

Up all night the way I'm rollin'.
Don't worry I'll be bring you back in the morning.
Yeah, we've both grown so let's get it.
Well I'm gonna' take you home if you're with it.

She flaunts it, cause she's got it.
So she kiss it.
She flaunts it cause she's got it.
So she kiss it.
She's the one I'm dreaming of.

All over me, that's how I really want you.
All over me, you just keep on working.
Focus on me and tell me what you see.
Focus on me and tell me what you see.

I don't have to be your man girl, but you should put it on me.

Go on get me your hand girl, you know I want it on me.
Focus on me and tell me what you see,
Focus on me and tell me what you see.
She's the one I'm dreaming of.

All over me, that's how I really want you.
All over me, you just keep on working. x2
