

Ex-Supermodel

Guided By Voices

She's slender
Oh, she's cream
She's face
I took her from place to place I moved her from room to room
I exploited her, became the groom
So I write music for soundtracks now
I write music for soundtracks now
(That's what I wanted to do anyhow) I took her from place to place
I took her from room to room
So I know, yeah
