The Butcher

Beatcream

Beauty will destroy your mind
Spare the gory details
Give them gift wrap for the man with everything
Though i lived a lonely life
I was confused
I'm butcher
Feel nothing
As it closes up my arms
The position of the worms
Up, up, through my heart

Into my brain
Im the big slack basic combination
Cut out
Chop, liver on the block
My heart still pumping
My heart still pumping
He's a warrior, warrior
He's a little bitch coming out of him
He's a warrior, warrior
He's a little bitch coming out of him
Coming out of him
