

# Take Care (Demo)

## Big Star

Take care not to hurt yourself  
Beware of the need for help  
You might need too much  
And people are suchTake care, please, take careSome people read idea books  
And some people have pretty looks  
But if your eyes are wide  
And all words asideTake care, please, take careThis sounds a bit like goodbye  
In a way it is I guess  
As I leave your side  
I've taken the airTake care, please, take care  
Take care, please, take care
