Cripple

Grade

Conscious to my surrounding
The curse of birth that I am strapped toUnable to ignore life's atrocity
My physical presence
Cripples my only means of escapingAnd I want to escape this
And I want to escape thisAnd it always brings me back
Back to back with no reality
I try to lose but I always will retain itRelease me from my awareness
Release me from my awareness
Release me from my awarenessThe feeling's strong enough to kill me
I become so afraid that I
I want to die, I want to die
I want to die, I want to dieCast, cast upon me the strength to survive
My awareness, my true love keeps me alive
Cast, cast upon me the strength to survive
My awareness, my true love keeps me aliveCast, cast upon me the strength to survive
My awareness, my true love keeps me alive
Cast, cast upon me the strength to survive
My awareness, my true love keeps me alive
