

I Want Your Face

Andrew W.K.

I want your face
I want your face
I want your face
I want your face
I want your face I want your face
I want your face
I want your face
I want your face I saw you from the sidewalk
In a reflection of life
I saw you through a tinted window
But you were moving out of sight
And everyone says I see you in my own eyes
I see you all the time
I don't know why
But everyone says I look like you I want to get what you got
And get it all the time
I want your face
'Cause I want your face The second time I saw you
Ooh, I could hear my nervous heartbeat
That old familiar dejavu
That happens every time I see you
But everyone says I see you in my own eyes
I see you all the time
I don't know why
But everyone says I look like you I want to get what you got
And get it all the time
I want your face
I want your face I know your eyes
I close your mouth
I kiss your teeth
Ooh, I lick your face I blow your hair
I grow your mind
I haunt your face
Ooh, I want your face I want your face
I want your face
I want your face
I want your face I want your face
I want your face
I want your face

I want your face I want your face
I want your face
I want your face
And everyone says I look like you I see you every Monday
I see you every Sunday
Ooh, I see you inside
And everyone says I look like you Ohh, I want to get what you got
I got to get what I want
So I want your face
'Cause everyone says I look like
Your face, your face
Your face, your face, your face Your face, your face
(Everyone says I look like)
Your face, your face
Your face, your face
Your face, your face
(And everyone says I look like your face)
Your face, your face
Your face, your face
